CHASKA, MINNESOTA

The Earl of Aberdeen, who was born in Scotland, is a short stout man, with a high forehead and a high nose, and speaks in the highest terms of the Irish all over the world.

The proposed construction of nine steel steamers of large dimensions for the trade between eastern points and Duluth, has added to the boom of the "steel city of the unsinkable sea."

Long distance telephoning is seriously impairing the business of some of the telegraphic companies. The substitution of conversation for other methods of communication, is one of the wonders of electricity.

Publishing houses and book establishments unite in the statement that no market exists for the revised edition of the Bible. Hundreds of thousands of copies remain on the shelves and the people will not buy them at any price.

The president will make his Philadelphia trip to participate in the constitutional centennial in September. He is under promise to go to Atlanta to attend the great Southern exposition in October, and to visit St. Louis, Chicago and the Northwest the same month. Pittsburgh ought to be able to catch him for a brief sojourn on his way to or from the West.

The "summer boarder season" at the East has been unusually active owing to prolonged and intense heat, and the fashionable watering places, also, report unprecedented numbers of guests. Although a great number of very sensible people believe they can keep cooler at home than anywhere else during the hottest weather and prefer to take their "outing" in the autumn, when they can travel with comfort.

The predictions of the advocates of a reduction of letters postage to two cents have been verified. The post office department has received the reports from nearly all the first-class postoffices for the fiscal year, and they show a considerable increase of revenue over the receipts for the preceding fiscal year. Some of the officials think, in fact, that the department may soon again be self-sustaining, notwithstanding the material reduction in postage.

According to Prof. Conrad of Halle, the number of university students in Germany has increased from 13,400 in 1867 to 28,000 at the present time. In the last five years the increase has been 26 per cent, while the population has increased only five per cent. All the professions which require special training are greatly overcrowded and an increasingly large number of the learned men are quite as poor as the body of the unlearned who earn a living by manual labor.

The new pistol law in Texas provides that all persons who carry about their persons, or saddles, or in their saddlebags a pistol, dirk, or other deadly weapon shall be punished by fine and imprisonment. It went into effect July 1. The law will probably be executed very loosely, at least, as similar laws are in other States. Almost every State has laws against carrying concealed weapons, and yet there are thousands of people who are ready to draw their guns when slight provocation. Something more and better than law is required to work a reform in this matter.

The fee of Dr. McKenzies, the famous specialist, for examining the throat of the Crown Prince of Germany was 2,500 guineas, and that for subsequent treatment he will receive as much more, making his total fees about \$25,000. This sum is much larger than the fee of physicians who attended President Garfield or General Grant, which were no more critical of the newsgatherers. Really, there is no reason why an eminent specialist should not be quite as well rewarded as foreign actresses or opera singers who actually make some hundreds of thousands during one season.

Scientists have at various times in the past assumed themselves with estimates, of a more or less definite character, of the vast amount of power that has been daily going to waste at Niagara Falls. And doubtless there has always been a considerable proportion of the visitors to Niagara whose admiration for its grandeur has been mixed with something of a long regret at the falling tons and water, and the energy that is dissipated as they fall. It appears that some of the leading business men of Buffalo have been looking at Niagara in this spirit, and the result has been a more modest, as we are told, to raise a prize fund of \$100,000 for an invention that shall best utilize this water power.

Unless the Illinois and unexpected happens in the next few weeks the South will have a larger cotton crop this year than it has ever harvested thus far. There is a promise, indeed, that 7,500,000 bales will be gathered, which is nearly twice as large as the heaviest yield in any year in the old slave labor period. The largest crop ever yet harvested was in 1883-84, 6,822,934 bales. Last year's crop of the cotton crop was 5,500,000 bales. The value of the crop this year will probably reach \$300,000,000. This is a large sum of money, but it is about \$75,000,000 more than the value of the average hay crop of the country in the past four years, about \$50,000,000 less than the average of recent wheat crops, and fully \$340,000,000 less than the average corn crop of the same period.

NEWS IN BRIEF.

Death of John Taylor, Chief of the Mormons.

John Taylor, President of the Mormon Church, died on the 25th. He was from England, and joined the Mormons in Ohio. He was a man of great energy and courage in defending the tenets of "Mormonism" and his strong personal friendship for the young Joseph Smith. He went with the church to Missouri, when he was ordered out of the Twelve Apostles. He suffered with his co-religionists the persecutions that attended the expulsion of the Mormons from that state in 1838. He took a prominent part in the reorganization of the fugitive saints in Illinois, and in the building of the city of Nauvoo. There he became editor of the official journal of the church.

He died at his home in the city of Nauvoo. He was 72 years of age. He was buried in the city of Nauvoo. He was a man of great energy and courage in defending the tenets of "Mormonism" and his strong personal friendship for the young Joseph Smith.

When Brigham Young died, in 1877, Elder Taylor stood, by seniority, at the head of the church. He was elected president of the church in 1880. He was a man of great energy and courage in defending the tenets of "Mormonism" and his strong personal friendship for the young Joseph Smith.

Many of our old citizens attended
the funeral of John Ess at Victoria,
on Monday Morning. He had a
large acquaintance in this county.

We hope our delinquent subscrib-
ers will try and settle their little
account with this office, immedi-
ately after harvest. It takes money
to run a newspaper.

The village council have not yet
decided upon what kind of fence
they will purchase for the Park. An
iron fence costs too much for the
state of our finances.

John Peters has commenced work
on the foundation for a new
dwelling house, on the old Warner
warehouse site on the river bank.
He says he will build high enough
so that high water won't trouble
him.

Our sportsmen are already making
arrangements for the annual chick-
en hunt, on the western prairies
in August. "Goose Mike, Crane Joe
and By Golly Leonard," have al-
ready commenced purchasing and
packing refreshments for the trip.

Our monthly stock fair Saturday,
was not as largely attended as usual,
still a large number of milch cows
and fatted steers, were purchased
at pretty good figures, by outside
buyers. Over a car load of milch
cows purchased here on Saturday
were shipped to Minneapolis.

The County Board of Equalization
meets on Monday, August 8th
to finish up, and the County Board
meets on Tuesday, the 9th, and
from the amount of business on
hand, will remain in session the
whole week, being the first session
since last spring.

Scarlet fever has broken out in
Chaska, and quite a number of
children are down with it at the present
writing. If it keeps spreading
our board of health will have to
quarantine. One death is already
reported elsewhere from this dis-
ease.

A young daughter of Mr. Scher-
er of Michigan, was buried on
Saturday Morning. She was two
years and a half old, and was a
bright & interesting child. It died
of Scarlet fever. Mr. & Mrs. Scher-
er have the sympathy of the com-
munity in their affliction.

L. O. Smith of Michigan, and
Frank G. Smith of St. Paul, father
and brother of Atty Smith of this
village, arrived here on a visit last
week, and are all camping on the
banks of Pierson's Lake, having a
good time fishing.

Mattie Ilts and Philip Henk, Jr.,
Young sons of Peter Ilts & Philip
Henk, respectively took a boyish
notion to take a "trunk" of off
house last Saturday. They were
seen in Waconia; Mattie goes to
St. Joe College and Philip is home
again.

Death of John Ess.

John Ess, an old, prominent and
well known citizen of Chanhassen,
died on Saturday, July 30th 1887,
after an illness of over a years dur-
ation. Mr. Ess was born in Bava-
ria, Germany in 1828, and was there-
fore 59 years of age at the time of
his death. He settled in Chanhassen
in the year 1855, and has been a
continual resident of this County
ever since, except while serving in
the army. In 1864 he was badly
wounded at the battle of Nashville
under Thomas in December 1864.

During his residence in Chau-
hassen, he occupied many positions
of public trust. He was a dutiful
citizen and brave soldier, and his
death will be deeply regretted by a
large circle of relatives and friends.
His funeral took place from the
Catholic Church, Victoria, on Mon-
day, and was largely attended. The
members of the Grand Army Post
of this village, of which the de-
ceased was an honored member, at-
tended in a body, to pay their last
sad respect to their departed com-
rade and friend.

He leaves a wife and a number
of grown children who have the
sympathy of the community in their
affliction.

A Serious Accident.

Mrs. Gottlieb Eder, met with a
serious accident Saturday afternoon.
She was out for a ride, together
with her young daughter and hired
girl, and while driving leisurely al-
ong the street north of her resi-
dence, the horse became frightened
at something, and making a sud-
den wheel about overturned the
carriage, Mrs. Eder suffering the
dislocation of the left shoulder
joint, dislocating of the wrist and
joint on right hand and fracture of
the radius, besides some contusions
on several parts of the body. The
child and maid escaped with slight
bruises. Dr. Naegeli was called
and reports the patient as in a fair
way of recovery, but still suffering
from pain.

Saved His Life.

Mr. D. Wilcoxson, of Horse Cove, Ky.
says he was, for many years, badly
afflicted with Phthisis, also Diabetes,
the pains were almost unendurable
and would sometimes throw him into
convulsions. He tried many remedies
and got relief from first bottle and
after taking six bottles, was entirely
cured, and had gained in flesh eighteen
pounds. Says he positively believes he would
have died, had it not been for the relief
afforded by Electric Bitters. Sold at
fifty cents a bottle at Franken Drug
store.

A Successful Burglary.

The Bazaar of John Bierstetzel,
of this village was burglarized on
Tuesday night, of Jewelry to the
amount of about \$150. An entrance
to the store was gained through a
window in the rear part of the build-
ing. Marshal Ehrmanntraut and Mr.
B. visited all the neighboring towns
looking after the thieves. An ar-
rest was made in Shakopee, of a
suspicious character, and a quanti-
ty of watches found on his person,
but none of Mr. B. property.

Ice Cream.

Ice Cream, best quality, at the
new confectionery, every Wednes-
day and Sunday afternoon during
the season. Remember the old
Bakery stand, on 2d street.

Farmers Attention.

Don't Experiment.

You cannot afford to waste time in ex-
perimenting when your lungs are in dan-
ger. Consumption always seems, at
first, only a cold. Do not permit any
doctor to impose upon you with some
cheap imitation of Dr. King's New Dis-
covery for Consumption, Coughs and
Colds, but be sure you get the genuine.
Because he can make more profit he may
tell you he has something just as good,
or just the same. Don't be deceived, but
insist upon getting Dr. King's New Dis-
covery, which is guaranteed to give re-
lief in all Throat, Lung and Chest affec-
tions. Trial bottle free at Chaska drug
store.

Dentistry.

Dr. J. G. Newell will be at the
Temperance hotel, Carver July 23,
19, 20, and 21st and at Cologne 22,
23d, at Fables hotel in Nor-
wood July 25, 26, 27 and 28. And
at Sargent's hotel Chaska, July 29
and 30th. Dr. J. G. Newell can be
found at his home office in

TOILETS OF CHASKA.

Ed. HERALD: Sir:—It is a serious
question why this well located town
of Chaska should regularly, as soon
as active operations on the brick
yards ceases fall back to such a win-
ter dormancy. There is plenty of
life and activity here during the
summer, but when the cold and
long winter arrives our busy popu-
lation is entirely thrown out of
permanent employment and fur-
ther reliance for their winter sup-
port.

Winter is when the cost of living
is the highest, and woe to that fam-
ily whose summer's surplus is ex-
hausted or the grim and icy win-
ter has spent its mighty force.
While we may never hear of a
case of actual suffering among our
laboring classes, but many are and
must be without those common
luxuries and necessities which dis-
tinguish us as civilized beings.
After one once possesses his own
home, one can keep himself and
family from starving for a mere
trifle, it is true; but what does such
economization really amount to, it
is certainly conducive neither to
health, happiness nor prosperity.

These laborers who left their
homes in the different parts of Eu-
rope sought this state and this city
in order to better their personal con-
ditions, but with the exception of
civil liberty, I dare say they have
for the most part failed in their
desired object. I am no K. of
K., and have no animosity against
the so called "Brick Barons," I
even believe that our brick yard
bosses do or at least intend to act
honestly towards their employees.
But as they are not directly respon-
sible for the miserable condition of
the laboring class in this town, so
the laborers do not feel that they
ought to better their personal con-
ditions, but with the exception of
civil liberty, I dare say they have
for the most part failed in their
desired object. I am no K. of
K., and have no animosity against
the so called "Brick Barons," I
even believe that our brick yard
bosses do or at least intend to act
honestly towards their employees.

The evil is this: our brick yards
actually can not furnish a man with
more than five months of perma-
nent employment in a year, the
other seven months (which in Minn-
esota are the severest both on body
and purse) he must spend without
work. This long and continued
idleness does not bring him any
benefit, nor even rest; as this bracing
winter climate calls for some sort
of activity.

Now it can plainly be seen that
the surplus earning of the five sum-
mer months will not keep a family
in comfort during a severe Minn-
esota winter. The low and half
civilized beings way down in the
tropical climates could scarcely live
so cheap. Now how can these labor-
ers be helped or how can we
(the laborers) help ourselves.

Would not some sort of manu-
factory where winter employment
could be obtained prove a great
boon to us.
The question is who would be
willing to undertake the responsi-
bility of establishing such a factory.
Would the laborers do it? Would
not our capitalists find a paying
opening here to invest their ready
cash, or would it be well to look
for outside enterprise.

As the merchants of Chaska de-
pend in great part on the patron-
age of the laborers, then would it
not be also their interest to see that
something in this line be located
here.
Chaska has sufficient railroad
facilities and the passage of the
"Inter State Commerce Bill,"
has the same freight advantages
as any of the large cities,
"A LABORER."

A Hard Lot of Tramps.

Marshal Ehrmanntraut and a
number of assistants, arrested six
hard looking tramps, which were
on the 10 o'clock freight on the M.
& St. L. Road, on Thursday even-
ing. They had attacked the con-
ductor and brakeman on the Oma-
ha train at a small station below
Hopkins, the same evening, inflict-
ing bad wounds on the brakeman.
Sheriff DaToit kept them in jail
until Saturday afternoon, when De-
tective Austin of the Omaha, came
up after them. They were a hard
lot and deserve to be sent over the
road for a number of years.

The Village Park.

The Park Committee opened bids
for grading, graveling and improv-
ing the public park, according to
plan and specifications on Wednes-
day evening of last week. There
were two bids, as follows:
August Bullner \$525.00
Raasch & Grates 349.00

Difference of \$176.00
The contract was accordingly ar-
warded to Raasch & Grates; the job
to be completed within six weeks
from Aug. 1st. A bond of \$300, was
required for the faithful perfor-
mance of the work from the success-
ful bidder.

Fatal Accident.

Jacob Ammen, of Plato, form-
erly of Camden, this County, met
with an accident which resulted in
his death on July 25th 1887. He
had been over a wire fence in front
of his premises after a bucket of
water, and while returning and
when stepping over the fence with
the water he slipped and fell over
the fence, striking upon the sharp
point of a brush that had been cut
some time before, the stick pen-
etrating the neck under the jaw on
the left side, and coming out on the
right side of the head, between the
eye and ear, just below the temple,
causing death within five minutes
after it happened. Mr. A. was 72
years of age, and had many friends
in this county.

Harvest Notice

The rain on Friday of last week
was of immense benefit to the corn
and potato crop.

The wheat is all out in this part
of the County, and the greater
part stacked. The yield will range
from 8 to 18 bushels per acre ac-
cording to locality.

The extreme dry weather from
the 4th of July until last week,
has affected the corn crop consid-
erably, and the yield will not be as
large as expected.

The potato crop will be light.
The "bugs" and the drought were
too much to insure an average
yield.

To Whom It May Concern.

Notice is hereby given to all holders of out-
standing village orders and bonds, that all
such orders and bonds should be presented to
the Treasurer at his office in said Village of
Chaska for payment on or before the 1st day
of August, A. D. 1887, as after that date no in-
terest will be paid on same.
By order of the village council, July 5, 1887.

Water town.

Fairday at Watertown next Mon-
day, August 8th.

Atty F. J. Steidl was in town on
legal business on Monday of last
week.

The following Delanoites were
noticed here during the week: J. C.
Hitz, J. E. Borch, C. H. Vorse,
L. A. Frazee, J. D. Young, Chas.
Eppel, Jr., and Miss Lulu Eppel.

G. P. Schaffer and wife went to
Delano last Wednesday to attend
the funeral of Lohmiller's child.

M. J. Lienau of St. Paul, was in
town last Thursday.

Miss Emma Kohler went to Maple
Lake, Saturday, where she will visit
with her brother, Dr. C. H. Koh-
ler.

Mr. Ed. Edwards and wife of
Minneapolis, formerly a resident of
this town, was called to this village
on a sad occasion. His daughter
Hattie aged 11 years came up to
visit her relatives about two weeks
ago, and after being here about two
weeks she was taken sick with
Diphtheria and after an illness
of a little over a week she died.
The funeral took place last Satur-
day at 10 o'clock.

Four funerals took place last week.
One was the infant of Mr. Nelson,
who resides on the Walsh farm,
whose wife was buried about 10
days ago. The second was a one
year old son of J. H. Hugen, who
died of Cholera infantum, about six
weeks ago; the third was Ora Cum-
mings, an about 17 years of age, who
died at the home of her Brother, Sam
Cummings, after a protracted
illness. She was buried in the cem-
etery in the Cedar settlement, where
her parents, two brothers and one
sister preceded her. And the fourth
was Hattie Edwards, aged 11 years
daughter of E. Edwards, after an
illness of about 10 days. Dr. J. H.
Frank was the attending physician.

CHASKA. MINNESOTA.

The decrease in the National debt in July was only about \$5,000,000, against large expenditures under congressional appropriations.

The crops of the State of Missouri for 1887, so far as they have been harvested, are much larger than those of average years, while the prospects for such as have not yet matured are highly encouraging.

Professor Elisha Gray's new discovery is called auto-telegraphy, and it is claimed that it will be possible with it to write upon a sheet of paper and have an autographic facsimile of the writing reproduced by telegraph 300 miles away, and probably a much greater distance.

The total amount of invisible wealth on hand on both coasts on the 1st inst. is found by Bradstreet's to be \$2,500,000,000, or 3,200,000,000 less than was on hand July 1, 1885. The visible supply amounts to enough to make a total of 72,000,000 bushels in the country.

In a single year, Germany shipped to the coast of Africa 7,130,236 gallons of rum and English sent 929,928 gallons, while the United States provided the beathen with 921,412 gallons of whisky. Strong drink seems to be a potent evil in some countries, but in others the result is different.

United States Circuit Judge Lammie, of New York, has decided that in the matter of ordering the return of manuscripts likely to become a public share, the order of the circuit court is in absolute, and the court has no jurisdiction. This upsets a decision of an opposite character by another New York Judge, and is more satisfactory.

It is a fact of considerable significance that the receipts from the internal revenue tax on distilled spirits for the fiscal year show a decrease of nearly \$5,000,000 from the amount of the year preceding. The statistics show that the falling off has occurred chiefly in those States where stringent restrictions upon the liquor traffic, including local option, have been adopted.

Governor Foraker and Thomas E. Powell, who are pitted against each other in the Ohio gubernatorial campaign, are old friends. They went to Wesleyan college at the same time. Foraker was a member of the Phi Kappa Psi fraternity, while Powell was a Sigma Chi. They were frequently pitted against each other in debate in the literary society to which they both belonged.

Thirty-five states have in force usury laws, in which the average rate is 3 to 8 per cent. In twenty states the conventional rate is 10 per cent. In twenty-one states 8 per cent. is the maximum, beyond which no one can legally go, in ten states 7 per cent. is the maximum. In New York, 6 per cent. is the maximum, the whole contract is null and void, and usury is made a crime. From the foundation of the government states have prescribed the rates of interest.

The age has developed a great variety of contests, the latest being eating and drinking, and these are becoming frequent. The champion of the day had a contest the other day in Brooklyn, N. Y., which turned out to be a one-sided affair. A man named Kepler disposed of 130 cans in just four minutes, while his opponent kept until he had put over a thousand into his stomach, and then he called for a spring chicken—but he had to be relieved afterwards by an emetic.

The international yacht race at this season seems the most extensive of the kind that has ever taken place. The new American yacht, "Volunteer," is said to be much faster than the Puritan or Mayflower, and it is conceded that the English yacht Thistle, is a very much faster sailer than any of the English yachts that thus far have been sent across the Atlantic. A good deal of national pride enters into contests of this character, a series of forty men have held "the cup" for many years, and the whole country will regret to hear of its transfer to the British. On the other hand, the old time "Mistress of the Seas" is equally interested in snatching it from the Yankee sailors. The result of the race is a fruitful subject of conjecture.

Thomas Scott, of Chicago, one of the oldest and most extensive dealers in the United States, says there is no mistake about the depression of the cattle business, especially on the ranges, being unprecedented. He says that sufficient cattle has not generally been paid to the falling off in the export trade as a cause operating to depress the cattle business. The enormous export of wheat at unprecedentedly low prices for a series of years has almost entirely driven out what growing in Great Britain and many European countries. The price of American wheat has been far below the cost of production in those countries. As a result the farmers have gone into cattle raising. Mr. Scott says that Scotland is full of cattle, and also northern Germany. Mr. Scott anticipates that there will in the next year be an immense withdrawal of capital. The result in his opinion will be to put the business in the hands of practical men who are on the ground, and in the dissolution of hundreds of cattle companies which have been organized all over the country, and which as a rule, have been badly managed.

NEWS IN BRIEF.

July Weather from the Signal Office.

The signal service at St. Paul gives the following account of July weather at that place, which is not dissimilar to the weather elsewhere in the northwest. The last month of July was remarkable for light and moderate winds, with a moderate temperature, and a slight degree of humidity. The atmosphere was remarkably "calm," being very frequent and "calm," exceptional, there being only one, and that on the 27th. It blew from the west at a speed of nearly 30 miles an hour for 10 minutes. The total number of miles traveled by the wind was 2,236. This is the lowest monthly movement on record for this place, and is only about half the July average. The average July temperature for this place is 71.4 degrees. The mean of last month was 74.1. This was not exceeded by any mid-summer month for the last 17 years, except in 1874, when the mean was 74.7 deg. The coldest July for the period named was in 1882, when the mean was 65.0 deg. The temperature was 90 deg. on six days last month; the highest, 92.0 deg., was recorded on the 15, and the lowest, 63.0 deg. on the 23d. The total rainfall during the month was 2.57 inches; the average is 3.26 inches. The wettest mid-summer month since 1870 was in 1873, and the driest in 1877. The rainfall being 9.32 and 3.52 inches respectively. The number of days on which it rained, 11th, 12th, 27th, 29th, and a faint shower on the 10th. The temperature for the northern portion of the State, all of Minnesota and Dakota was 72 deg. The temperature was 72 deg. in the north, and 72 deg. in the south. Don't forget that you can get first class ice cream soda, Tuesdays and Fridays at Baldwin's Drug Store.

The village store house, which has been an eye sore on the public park, has been moved to a vacant lot near the creek, by order of the village council. Good.

Joseph Fraumeni was serenaded on Friday evening the 5th inst. It was his 29th birthday. The serenaders were all young men, and report a "right royal good time."

We are pleased to learn that Henry Adolph who was injured by getting between engine & separator recently near Cologne, is improving and is considered out of danger.

A good rain shower struck us on Tuesday night and continued Wednesday morning. It was much needed, and will prove of great benefit.

M. Simonite of Norwood, advertising a lot of furniture as good as new, \$90.00 worth, for \$39.50 cash. It is a bargain at those figures, and should find a ready buyer. See ad.

Mrs. Henry Nicol of Jordan is the mother of a fine young son, Andrew Hansmann, of Delano also rejoices over the arrival of a young heir in his family. We extend our congratulations to all concerned.

Philip Redele left for a trip to Chicago, New York, and Philadelphia last week. He will be gone several weeks, and will inspect the big brick yards in those cities, with a view of putting in a lot of improvements in the Redele yard next season. Good.

Mr. Ferd Hammers, of the Chaska House, has a number of workmen digging the cellar for a new business building, on the corner lot west of Mrs. Dr. Lewis residence, on Main St. As soon as his building plans are matured, we will announce the fact in the HERALD.

Found! In Chaska on July 19th 1887 a roll of paper money. The owner will please come forward prove the amount, denomination and character of bills and he can have the money.

Dated Chaska, July 23d 1887. Chas. Niccum.

It is extremely difficult for news papers to build up a town, when the town does nothing to build up the newspapers. Every boast made by the newspapers that business is booming, when it hasn't advertisements to back up the assertion in it, is a dead give away.

W. D. Rosbach & family recently made a two weeks trip to Austin State, and on their return the Cornet Band, tendered him a very pleasant evening serenade. Mr. R. is the efficient leader of the Band, and the boys feel gratified at his return.

The Young America Band came down for practice last Saturday, and remained over until Sunday Evening. We mention the fact more fully in another column. They are a gentlemanly set of musicians, and we hope to meet them often.

Mike Holl of Chanhassen threshed last week with the following result: Wheat 233 bushels, oats 347 bushels. Last year he threshed over 1500 bushels altogether. His wheat this year averaged about 6 bushels to the acre, his oats 10. Other chinch bug infested fields will show about the same average.

The HERALD fishing party under the leadership of our foreman, Willie Ebrunstrant, enjoyed a few days of camping life, and the pleasure of fishing and hunting on the bank of Holtmier Lake, last week. The boys returned home Saturday evening feeling greatly invigorated.

Scarlet fever is said to be still spreading in town. On Monday the Board of Health had notices posted at all places where the disease was known to exist, and care should be taken to prevent the further spread of the disease.

People are in the habit of buying where they can get the best goods for the least money, consequently one combination wagon, one lumber wagon, three plows and two pumps, were bought of the Chaska Agricultural Implement Co., on last monthly fair day.

George Klein, the old stand by farmer of Benton, called on us while in town last week. He informed us that the report published in the Carver Free Press, that his wind mill was broken and out of repair was a mistake. It never was out of order, and works to a charm. The pump got out of order, on account of being worked or handled by a person not acquainted with the workings of the pump. This and nothing more.

THRESHING NOTES.

A Poor Yield Reported.

Contrary to expectation, the wheat harvest is practically a failure in this County, which has always heretofore yielded abundantly. We give the following reports received direct from the thrasher in different towns of the county.

In Waconia conservative places the yield at, from 10 to 15 per acre.

In Young America, Camden, Hancock and Benton, the crop is better and the yield can be placed all the way from 12 to 20 bushels.

In Hollywood and Watertown it is placed at 10 to 18 bushels per acre, with many fields that will return less.

Dahlgren and Laketown will only thresh a half crop, while Chaska, Chanhassen, Carver and San Francisco will show the poorest yield; many fields returning but 5 and 6 bushels per acre, the average can perhaps be placed at 10 bushels in these towns.

Young America Fest.

The annual Festival of the Young America Pioneer Manuor Chor Singing Society, will take place on Sunday August 21st. The combined Chaska and Young America Band, will appear in full uniform and furnish music for the occasion, and those in attendance can anticipate a rich treat. The vocal part of the programme will be up to the usual Young America standard, which is always No. 1. A large attendance is expected.

Cologne, Aug. 1st 1887.

Mr. Editor.—In a recent number of the Carver Free Press a correspondent signing himself X., spoke about the Cologne shoemaker having too much work. I suppose he thinks so, but I wish to inform him that the aforesaid shoemaker is always willing and ready to accommodate the public as far as he is able.

As for Mr. X., he seems to have signed his name to his own article, and hereafter he had better mind his own business and let the Cologne shoemaker alone.

Greatly Excited.

Not a few of the citizens of Chaska have recently become greatly excited over the astounding facts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope—suffering with that dreaded monster Consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, Coughs, Colds, Asthma and Bronchitis.

Musical Organization.

The Music of the "Carver County Band" "Forward March!"

Musical Organization of which Carver County may well be Proud.

The splendid band recently established in this County, which will be known as "The Carver County Band," W. D. Rosbach, Leader had their first rehearsal last Saturday evening, which proved very satisfactory. We take pleasure in saying that the early promise of this band under the leadership of Mr. Rosbach has been more than fulfilled; that its organization is strong and efficient; consisting of the Chaska Cornet Band and the Union Band of Young America, that its long and conscientious drill has been promissive of the happiest results, and that Carver County has at last a band which may be compared with any in the north west.

The members of the Carver County band are as follows:

W. D. Rosbach, Leader.

Geo. W. Beck, Drum Major.

the bronze medals, and robbing from the pockets of the heroes, and other worthless fellows, who were not allowed to lead emblems of their race. The train that night did the human hyenas plunder the dead from this terrible accident, and the living from the pockets of their feet. Who these wretches are is not known. Whether they were a band of pickpockets who accompanied the train, or some of the passengers, or some of the victims, I cannot say. The horrible suspicion exists, and there are many who give it credence. I have heard of a dead man's watch being found in the pocket of a dead airplane case of fire, and a dead man's airplane was set on fire by miscreants who hoped to lose the opportunity offered, and the airplane was so far consumed that at the time the train crashed the victim had fallen face the train was an hour and a half late, the fact that the train was an hour and a half late, are pointed out as evidence of a foul play. I have heard of a dead man who could not be lost to all the ordinary feelings which animates the basest of the human race, but still men who will rob dead men; who will

to the side of his wife and through the ferns in the darkness, pressed some candy to her lips and asked her how she felt.

THE ONLY ANSWER.

And the next instant she died. The man felt a faintness, a dizziness, and then he fell out. "My God! there is no life in me! no love for no man!" and taking a pistol from his pocket, pulled the trigger. The bullet went straight into the forehead of one dead body of those that little family are now lying side by side in Chatsworth waiting for the day when they will follow the character who was driven out to the water.

The driver went along the road, and the rain and the wind from the south so roared and howled that the old-fashioned orange orange heard no more. Very muddy and full of chock holes, the road was very bad, and the car from the west ran. Some had checks in their hats and carried valises. They were evidently on their way to the hotel. The car was full of men and women and children and girls came along swinging hands and talking in loud tones about the terrible storm.

The car came along the track. He was carrying a camera and a lot of things. The road was a lot of mud, just little grade and the car was at the back of two or three feet from the car. About two or three miles from the car on the track. The sleeping car "Tunis" was at the end of the train. It was jacked in the air, and the car was directly over the place where the bridge stood. To the right lay a coach

over the burning bridge in safety, was under the weight that the half-ton engine could not move, and he slipped back into the dry ditch. The engine kept on rolling and at speed of the unfortunate train, Milstock's engine plunged down into the river. The engine was in the front of the cab it took McClintock in the back of the neck and cut him clean off his head. The body of the engine, however, the head could not be discovered, and the presumption is that it was ground to pieces. The engine was a very old one and the tender. There have been many accidents as to the origin of the fire which was the cause of the accident, but it is, but so far they are nothing but guesses.

News of the accident was quickly brought to Glatworthy by one of the engines coming to midnight, and the inhabitants, aroused, hurried, lumber wagons, and a fire engine to the scene of the accident at once. As fast as the corpses were taken from the wreck they were laid out on the ground and covered with blankets. Work of recovering the dead and removing them to Glatworthy was begun. The engine and tender were taken to a place in a large, empty building.

Reports Concerning the Great Drouth

A well was sunk near the residence of L. F. Scott at Albert Lea, and when at a depth of ninety-five feet enough escaped to permit the pump to be run. The water crooked so that a blaze over a foot in height was made. A pipe was run into the well to the bottom and a room brilliantly lighted with gas. The water was raised to the surface and the light was natural gas.

The railroad from Bellinzona to Lake Lucerne in the famous St. Gothard tunnel, is, without exception, the greatest feat of engineering skill ever exhibited. Such wild scenery and grandeur of view! As the train passes along rushing mountain brooks, crossing on viaducts and bridges, it winds up the valley, ever ascending, while the mountains close in on both sides, as if to crush us into existence. At the very end of the mighty mountain which is pierced by the great St. Gothard tunnel, it enters a mountain, and makes a spiral turn in its depths, to appear 100 feet higher up, only to repeat the spiral spiral and descend 130 feet, and again ascend 122 feet, when upon appearing on

look down this 500 feet. Now we see a canyon already traveled. Now we appear to be in a great gorge, and the river plunges into the great tunnel. This took twenty-six minutes to go through. It is nine and one-half miles in length and well ventilated. The highest point of the line is in the middle, and at the top of the canyon the sea and 5,000 feet below the surface of the water is a mine. Its construction cost \$114,000,000 and consumed eight years in its completion, working from both ends. The scenery on both sides is unequalled. The water is the most serene for its size and grandeur, broken only by the roar of the mountain torrent as it rushes over the rocks in its mad career, while from above the snow-capped peaks look down on this stately, solemn silence with its flowing water.

Going from Lucerne to Interlaken we rode over the Brünig pass, which has an altitude of 4,000 feet, and from which, on both sides, some of the grandest, most sublime scenery is to be seen. The first of the pass was opened up only our view. Mountain penks in the distance, whose heads, lifting themselves far above the clouds, glistened in the sunlight and looked as if it were a fairy land where the clouds would go, only look at the wilderness of the region, that which our road had at times reached. This fall of water rushes over a precipice over 100 feet high like a torrent. As it falls, however, it appears to the sight as if it were in a struggle with a mighty undercurrent, and the water flows, broken up into such fine particles that as a veil it descends slowly, a part floating away as a cloud, and the remainder finally reaching the rocks below, where it collects itself into a

New York Letter: The largest steam yacht yet built is William K. Vanderbilt's new boat, the *Alva*, which is two hundred and eighty-five feet long. It cost the owner of the *Alva* upwards of two hundred dollars a month to run the *Alva* on an ocean voyage without spending any money on provisions for himself and guests. His father had committed murder, had been pronounced guilty, and condemned to twenty-years' hard labor. The young man was then 8 years old, and his father's features remained firmly imprinted upon his memory, as well as the sole painful impression of the event, which produced a severe shock upon

Colored People in London.
Edward's Letter in New York World.

Colored people are apparently very numerous in London. There does not seem to be any prejudice against them on account of their color. There are

many colored people in London, and now from the States, and they are invariably in the company of white people and associating with them upon a footing of perfect equality. I saw the other day upon Regent Street a negro girl, black as a coal, and dressed elegantly, leaning upon the arm of a fashionable Englishman, who seemed perfectly charmed and contented with his dusky companion. In the same way, I have seen women, respectable in their appearance and dress, walking in public company upon the streets of London, with Frederick Douglass, when he was here, negroes did not seem to be any prejudice in England against the negro on account of his color. The other day I met a colored man, who I thought was very hard at work in the library reading up for an examination, I

Sportsmen are having a "grand time" on the Prairie this week, if we are to judge from the quantity of refreshments they took along.

Joe Frank and L. Streukens left for their annual chicken hunt on Saturday, taking the train at Cologne.

Mike Bierline, E. Besemann & Fred Hecklin, started by team for the Benville Praries on Saturday. Chickens will have to suffer.

Capt. Muehlberg, Hon. Chas. Bachmann and Frank Plackner, were in town one evening last week.

Chaska has had more than her usual number of funerals within the past two weeks. We hope for the better in the future.

Frank Eisele's new ad will appear next week. In the meantime he still holds forth at his old stand.

A. E. Kaeder town clerk of Waconia, was in town on Wednesday of last week on business before the County Board. He secured an appropriation for his town. We acknowledge a pleasant call.

We publish the proceedings of the County Board of Equalization in this issue. Also a part of the proceedings of the County Board, which limits our space for local news.

John Kadde our efficient Coroner, was in town on Saturday, being called here to hold an inquest on the body of John Boye. He did not deem it necessary, and gave the necessary burial permit.

The Messrs Smith, father and brother respectively of Atty Smith of this village presented their many acquaintances in this village, with their catch during their stay at Lake Pierson. They report a grand time.

Died.

Death of John Boye.

John Boye, who built the large Hall and saloon across the creek on the Shakopee road, near Briens Brewery last year, shot himself while under arrest on Wednesday afternoon of last week, the bullet was fired from a "North Star" revolver, carrying a No. 32 bullet, long, which penetrated the head in front of the ear, lodging in the brain. He lived until Friday evening, breathing his last at 7 o'clock. Mr. B., has had some family troubles, and his wife had applied for a divorce from him; this it seems caused him to drink to excess, and while under the influence of liquor on Tuesday night, previous to the shooting, fired a number of shots into Mrs. Karchers residence where he supposed his wife was stopping. For this he was arrested by the Marshal on Wednesday evening, the Marshal allowing him to go home, but following him up closely. On Boye's entering his house, he immediately picked up his revolver, shooting himself as above stated.

When himself, Boye was a generous fellow but when under the influence of liquor seemed to be another person entirely.

He moved here nearly two years ago from Minneapolis, and we know little or nothing of his previous record or his wife, in Wisconsin.

He was buried on Saturday, the funeral being a private one.

Real Estate Transfers.

Theodore Rudiger of this village, purchased the corner lot, and one and a half story framed dwelling situated nearly opposite the Lewis residence of Stephen Janitski, on Saturday, paying one thousand dollars for the same. The lot is a valuable one, the building being badly out of repair, but Mr. R., has secured a good piece of property in the best part of the residence section of our village.

Mr. Janitski will probably build again before the winter sets in.

Personal.

E. Poppitz, the father of August station, was in town shaking hands with his many old pioneer friends on Monday. He did not forget this office.

Rev. Father Michaels, O. S. F., formerly of this mission, but now connected with a Franciscan College in Illinois, arrived in Chaska last week, and preached an eloquent sermon on Sunday to a large congregation. On Monday he officiated at the services dedicating the new altar of the Catholic Church in Waconia.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Conley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery cured him. Finding relief, he bought a large bottle and a box of Dr. King's New Discovery by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

Trial Bottles of this Great Discovery for Consumption free at Frankens Drug Store.

Watertown.

Our monthly fair was largely attended considering the busy time of the season. 16 cattle buyers registered at the Watertown Hotel, and the two other hotels were crowded, and about 25 horse traders, that shows for its self that the Watertown fair is one of the largest in the State.

John Truve of Young America was in town last Tuesday a week, visiting his son A. J. Truve.

Winsted was well represented at the Watertown fair by Fred Moy, Hon. Val Vollmer and his father, also Mr. Nicolet proprietor of the West & Nicolet Hotel Barber shops of Minneapolis.

John Haffner one of the prominent business men of Delano was in town last Wednesday week.

Among the Delanoites that were here last week we noticed J. D. Young, C. H. Vorse, Joe Cramer and daughters, Mr. and Mrs. J. C. Hitz, Mr. Lewis, Miss. Dyer and Mr. Conzel.

Mrs. Noonon, residing two miles below this village, on the Delano road, offers her farm for sale cheap and on reasonable terms, or she will rent to some good responsible man for cash or on shares. This seems to us to be a good chance for some one to rent a good farm cheap.

Mr. Julius Schaler of Chaska, Judge of Probate of this County, was in town Friday on business.

E. T. Burns of Norwood was in town Sunday shaking hands with his friends.

Jake Yager of this place has purchased a full threshing uniform of F. Dressler. Jake is going to thresh with Sam Cunnings this fall. Jake is undoubtedly the best feeder in the North west, he says he can put 150 bushels of wheat through a machine in an hour.

C. N. & St. P. Ry. & D. D. Ry. TIME TABLE NO. 5.

HOME AND COUNTY NEWS.

Friday was a rainy day.

Several new legal ads this week.

A large number of private dwellings have been erected in Chaska this season.

Every body should smoke the Garden City Cigar. A 10c cigar for 5c at Baldwin & Co's.

Pay up your subscription to the Herald. "Money makes the marquis," as the old Pennsylvania Dutchman said.

The editor left us on Monday on a trip to the north part of the County. Use him well and you will be rewarded in the hereafter.

We finish publishing the proceedings of the County Board this week. We have a good line of correspondence besides.

Jos. M. Schmitz & family have moved from Minneapolis to St. Cloud. Joseph has charge of the Phoenix Machine shop at that place.

Mr. John Sundue of Carver, has accepted a position in the office of the Holmes line of Elevators in Minneapolis. His many friends in this County wish him success.

Strobach, Greiner & Co; brick Manufacturers have shut down one Machine on the upper yard, owing to a lack of laborers and the large quantity of brick on hand.

The attention of the street Commissioners is called to several holes in the side walks in this village. Broken limbs may be the result of delay in repairing.

Chaska turned out a large number of people to the Festival at Young America on Sunday. We understand that the attendance was very large and the exercises very interesting.

Peter Illis & family, returned home on Tuesday, from a week's visit with his brother Mathias, at Fergus Falls. He reports a pleasant time, and says Matt is prospering in business.

Our Merchants are preparing for a large fall trade, and have ordered large stocks of goods. Let the people know how you are selling through the columns of the Herald. Enterprise will bring its reward.

Quite a number of our citizens attended the festival of the Pioneer Manner choir, at Young America last Sunday. Judge Schaller, F. W. Hennings and E. Besemann being among the number.

The Side Walk in front of the City Jail is in a horrible condition. A person is in danger of his life in passing there after dark. Who is responsible for this?

The many friends of Michael Zahler of Waconia, will deeply regret to learn that he has recently buried an interesting 12 year old daughter. He has the sympathy of all in his affliction. See notice of death in Waconia correspondence.

A Henderson Saloon keeper was recently fined \$50 and costs for running a "blind pig" and selling beer in bottles marked "Dis Moines Cider" and "Sarsaparilla Beer." Will some of our "blind pigs" take a hint?

Read the new ad of Frank Eiselein. He has a large stock of new goods, which he proposes to close out cheap. He has a new stock of trunks & valises and he desires an inspection of his stock and prices, believing he can satisfy you.

We are under many obligations to E. Besemann for three fine pieces of chickens; also to Auditor Strengens for two. Editors are distinguished for their eating capacities, and they are always willing to accept anything in the eating line, from a tomato to a quarter of beef.

The many friends of Anton Tietz & wife of Minneapolis, will regret to learn that their only son, Peter, aged 10 months, died on Monday, August 13th. They have the sympathy of their many friends in this County.

The back streets of Chaska have been greatly improved by our council this summer. Now they should turn their attention to the business streets if they have any more money to spend. Second and Chestnut streets need their attention.

The Herald family is under many obligation to Mr. & Mrs. Peter Lano of Chanhassen, for a case of fine comb honey, from his own hives. Mr. L. is one of our most progressive farmers, and has as fine a residence, as can be found in the County.

We call the attention of Contractors and builders to the notice of the village of Cologne, inviting bids for the building of a brick Engine House, in that village. Dimensions are given in this issue, but specifications can be seen in the Recorder's office in Cologne.

Mrs. M. M. widow of the late Geo. Mix of Waconia, has recently completed a neat family residence in the pleasant village of Excelsior. Her many friends will be pleased to learn that she is so pleasantly located.

Watch for the mammoth stock of 5 and 10c goods at Baldwin & Co's Drug store.

Every article worth twice the money, ask for it. Profit is no object come early and get the benefit of the choice articles.

Casper Schmidt who has for several years been employed as blacksmith in the Little Falls wagon and repair shop, and who is well known to our people has gone below to buy stock for a new blacksmith shop which he will open next week. Casper is a good steady boy, and a No. 1 workman, and is sure to succeed in his new venture. Those having work in this line should give him a call. Democrat, Little Falls.

Death of Robert Miller.

Robert Miller, familiarly known for the last 30 years as squire Miller, died at the residence of his daughter, in Young America, on August 18th 1887, of general debility, aged 71 years.

Mr. Miller was one of the pioneer settlers of this County, having located on a homestead near the village of Beale in 1855, coming to this state from New York. His name is prominently identified with the early history of the County, having been County Commissioner for many years, and the foremost citizen in his town affairs for over 25 years, widely and more political influence in old times than in any man in the County. His old associates have nearly all passed away. He was generous to a fault, and was every man's friend. For the past 10 years he has been under the influence of his mind having given away, so that his death has been expected. His many old friends will ever remember him and his many deeds of kindness, and extend to his bereaved wife and children their heartfelt sympathy in their distress.

"MAY BE REST IN PEACE."

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Franks Drug Store as their giving away to their customers of a new free trial bottle of Dr. King's new discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Whooping Cough, and all lung diseases are quickly cured. You can test it, before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Dentistry.

Dr. J. G. Newell will be at the Temperance hotel, Carver, August 16, 17, 18, 19, and 20. At Falls hotel, Norwood 22, 23, 24 and 25, and at Sargent's hotel Chaska 26 & 27. Dr. Newell can always be found at his home office in Shakopee the first half of each month.

Lost! Between Chaska & Piersons Lake, on Monday, Aug 15th, a light brown satchel, articles in it marked P. G. Smith. Finder will be suitably rewarded by returning the same to my office in Chaska.

E. T. SMITH.

Young America, Aug. 15, '87. ED VALLEY HERALD: It has just been intimated by my notice that the VALLEY HERALD, makes the statement that the editor of the Carver Free Press will have to look to his laurels for the Good Templars over the fence. Now while I belong to both, I would say that I have members of both that take the Valley Herald, Carver Free Press and Carver County News and when anything of moment to either party comes up, and will appear in all three of our county papers, unless the editor refuses to put it in his paper, and as a prohibitionist I thank all three of said papers for favors and courtesies granted heretofore and desire their continuance.

Yours Truly, J. H. THOMAS.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up but not with stimulants, spring medicines, or bitters, which leave you feeling worse than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Franks Drug Store.

Notes from the Thresher.

Wheat in the town of Chanhassen, will average about 10 bushels per acre. The yield on many farms not returning the amount of seed sown. Some few fields yield well however.

Mrs. Kessler, threshed on an average 15 bushel per acre of No 1 grain.

Jacob Wartmanns wheat averaged 15 bushels of No 1 grain per acre. On seven acres of oats he threshed 30 bushels or over 44 bushels per acre.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Scalds, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively Cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by J. Franks.

For Sale.

Thirty five acres of Church land at Chanhassen, Minn., will now be sold. Said property is lying adjacent to the old church and school, or near Chanhassen station. For further information please apply to the Pastor of said congregation.

HOME AND COUNTY NEWS.

Friday was a rainy day.

Several new legal ads this week.

A large number of private dwellings have been erected in Chaska this season.

Every body should smoke the Garden City Cigar. A 10c cigar for 5c at Baldwin & Co's.

Pay up your subscription to the Herald. "Money makes the mare go," as the old Pennsylvania Dutchman said.

The editor left us on Monday on a trip to the north part of the County. Use him well and you will be rewarded in the hereafter.

We finish publishing the proceedings of the County Board this week. We have a good line of correspondence besides.

Jos. M. Schulz & family have moved from Minneapolis to St. Cloud. Joseph has charge of the Phoenix Machine shop at that place.

Mr. John Sundine of Carver, has accepted a position in the office of the Holmes line of Elevators in Minneapolis. His many friends in this County wish him success.

Strobach, Greiner & Co; brick Manufacturers have shut down one Machine on the upper yard, owing to a lack of laborers and the large quantity of brick on hand.

The attention of the street Commissioners is called to several holes in the sidewalk in this village. Broken limbs may be the result of delay in repairing.

Chaska turned out a large number of people to the Festival at Young America on Sunday. We understand that the attendance was very large and the exercises very interesting.

Peter Illis & family, returned home on Tuesday, from a week's visit with his brother Mathias, at Fergus Falls. He reports a pleasant time, and says Matt is prospering in business.

Our Merchants are preparing for a large fall trade, and have ordered large stocks of goods. Let the people know how you are selling through the columns of the Herald. Enterprise will bring its reward.

Quite a number of our citizens attended the festival of the Pioneer Manner club, at Young America last Sunday. Judge Schaller, P. W. Hennings and E. Besseman being among the number.

The Side Walk in front of the Goodrich Tenement is in a horrible condition. A person is in danger of his life in passing there after dark. Who is responsible for this?

The many friends of Michael Zahler, who has been recently buried an interesting 12 year old daughter. He has the sympathy of all in his affliction. See notice of death in Waconia correspondence.

A Henderson Saloon keeper was recently fined \$50 and costs for running a blind pig and selling beer in bottles marked "The Moines Cider" and "Sarsaparilla Beer." Will some of our "blind pigs" take a hint?

Read the new ad of Frank Eiselein. He has a large stock of new goods, which he proposes to close out cheap. He has a new stock of trunks & valises and he desires an inspection of his stock and prices, believing he can satisfy you.

We are under many obligations to R. Besseman for three private chickens; also to Auditor Streng for medicines or better, which he has been kind enough to furnish for their cat, and they are always willing to accept anything in the eating line from a tomato to a quarter of beef.

The many friends of Anton Tietz & wife of Minneapolis, will regret to learn that their only son, Peter, aged 10 months, died on Monday, August 15th. They have the sympathy of their many friends in this County.

The back streets of Chaska have been greatly improved by our council this summer. Now they should turn their attention to the business streets if they have any more money to spend. Second and Chestnut streets need their attention.

The Herald family is under many obligation to Mr. & Mrs. Peter Laro of Chanhassen, for a case of fine comb honey, from his own hives. Mr. L. is one of our most progressive farmers, and has as fine a residence, as can be found in the County.

We call the attention of Contractors and builders to the notice of the village of Cologne, inviting bids for the building of a brick Engine House, in that village. Dimensions are given in this issue, but specifications can be seen in the Recorder's office in Cologne.

Mrs. Mix, widow of the late Geo. Mix of Waconia, has recently completed a neat family residence in the pleasant village of Excelsior. Her daughter, Lida, is with her. Her many Chaska friends will be pleased to learn that she is so pleasantly located.

Watch for the mammoth stock of 5 and 10c goods at Baldwin & Co's Drug store.

Every article worth twice the money, early and get the benefit of the choice articles.

Casper Schmidt who has for several years been employed as blacksmith in the Little Falls wagon and blacksmith shop, and who is well known to our people has gone below to buy stock for a new blacksmith shop which he will open next week. Casper is a good steady boy, and a No. 1 workman, and is sure to succeed in his new venture. Those having work in his line should give him a call. Democrat, Little Falls.

Death of Robert Miller.

Robert Miller, familiarly known for the last 30 years asquire Miller, died at the residence of his daughter, in Young America, on August 15th 1887, of general debility, aged 71 years.

Mr. Miller was one of the pioneer settlers of this County, having located on a homestead near the village of Benton in 1855, coming to this state from New York. His name is prominently identified with the early history of the County, having been County Commissioner for many years, and the foremost citizen in his town affairs for over 25 years, wielding, perhaps, more political influence in old pioneer times than any man in the County. His old associates have nearly all passed away. He was generous to a fault, and was every man's friend. For the past 10 years he has been unable to do anything, his mind having given away, so that his death has been expected. His many old friends will ever remember him and his many deeds of kindness, and extend to his bereaved wife and children their heartfelt sympathy in their distress.

"MAY BE REST IN PEACE."

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Frankens Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's new discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures, never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle for large size \$1. Every bottle warranted.

Dentistry.

Dr. J. G. Newell will be at the Temperance hotel, Carver, August 16, 17, 18, 19 and 20. At Fables hotel, Newwood 22, 23, 24 and 25, and at Sargents hotel Chaska 26 & 27. Dr. Newell can always be found at his home office in Shakopee the first half of each month.

Lost! Between Chaska & Shakopee, on Monday, Aug 15th, a light brown satchel, articles in it marked F. G. Smith. Finder will be suitably rewarded by returning the same to my office in Chaska.

E. T. SMITH.

Young America, Aug. 15, '87.

ED VALLEY HERALD: It has just been furnished to my notice that the Valley Herald, looking the statement that the editor of the Carver Press Press will have to look to his laurels for the Good Templars and Prohibitionists have cast him over the fence. Now while I belong to both, I would say that he has members of both that take the Valley Herald, Carver Press and Carver County News and when anything of moment to either party comes up, and will be of interest to all three of our county papers, unless the editor refuses to put it in his paper, and as a prohibitionist I thank all three of said papers for favors and courtesies granted heretofore and desire their continuance.

Yours Truly,

J. H. THOMAS.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are getting nervous and generally out of sorts, and want to brace up. Brace up but not with stimulants, stimulants are cheap, but they take for their basis very cheap, but stimulants which stimulate you for an hour and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Frankens Drug Store.

Notes from the Thresher.

Wheat in the town of Chanhassen, will average about 10 bushels per acre. The yield on many farms not returning the amount of seed sown. Some few fields yield well however.

Jacoby Wartmann wheat averaged 15 bushels of No 1, grain per acre. On seven acres of oats he threshed 3.5 bushels or over 44 bushels per acre.

Bucklen's Arnica Salve.

This Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures them. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Jos. Frankens.

For Sale.

Thirty five acres of Church land at Chanhassen, Minn., will now be sold. Said property is lying adjacent to the old school and school at or near Chanhassen station.

For further information please apply to the Pastor of said congregation.
